

## Ebico is named top-rated energy company

We are pleased to announce that we have been ranked in the top 3 of the Which? Utilities satisfaction survey for the third year running!

Ebico has been given five out of five stars within three of the five categories we were rated on; Understanding Bills, Accuracy of Bills, and Value for Money! Which? said:

"The UK's only not-for-profit energy supplier proves there is an alternative to the big players in the energy market. Ebico charges all its customers the same rate for gas and electricity, even if you pre-pay or only use one of its services. One members says it's 'the only supplier with a

### Ebico Trust sponsors a new project

The Ebico Trust for Sustainable Development has committed to fund a 12 month project with Energy Solutions Ltd.

The project is an anti-fuel poverty drive, including research into fuel poverty in the London boroughs of Bre and Harrow.

Full information on this project and others that the trust is funding is available on our [website](#).

### Ebico and The Big Society

By Phil Levermore

Now, being a bit of a cynic, I had assumed the Big Society was a bit of PR 'smoke and mirrors' to divert attention from the real objective, in these straightened times of 'Small Government'. Something along the line of, "Sorry Britain, the State can no longer afford to do all these things, but how about you do them yourselves?"

### Stormguard Double Glazing Film review

Our product review for this month looks at Stormguard Double Glazing Film.

Stormguard Double Glazing Film is a thin, transparent, plastic film (a little like a thick cling-film) that is placed over a window and then secured in place with double-sided sticky tape. So what is it for? Well, roughly 10% of the heat lost from a house will be lost through the windows. [Read more](#)
